OVERVIEW

My name is Eric Barbera and I am the Director of Scouting in the WNY area for Athletic Scholarship Corporation, the nation's leader in sports marketing, mentoring and management. Our sports professionals and technology providers interface student-athletes with athletic scholarship offers nationwide. Our mission is to create leverage using your child's athletic ability to offset the rising cost of obtaining a college education. We have been featured on ESPN, TSN, FSN & STACK Magazine.

In many cases if your school doesn't have a winning record the attraction for recruiters is low. Our firm is focused on offering services to those athletes who have not been recruited, may have been overlooked or want more options. We are fully aware that there are more athletes than recruiters and at times those recruiters aren't able to communicate with all the coaches, or the coaches don't have the time to market their "kids".

If you were to review, compile and send tapes to every college coach nationwide the cost would be thousands! With our method you receive expert review and distribution to a national network of all college coaches and recruiters at the click of a button! The cost of our service is a win-win! You now have the ability to have your talents reviewed nationwide and increase your access to more athletic scholarships and grant options.

We have a team of professional athletes and coaches who work for the benefit of the student-athlete by reviewing hours of film to compile a "highlight" reel. You have access to create and update a player profile page with photos, bio, stats and a link to watch the highlight film(s) online. We update all the NCAA, JUCO & NAIA coaches via phone, fax and email to the bio and highlight film page of our newest student-athlete... YOU! No expensive tapes to ship nationwide.

Our highlight film editors are coaches and athletes specific to the sport! Your contracted consultant will work with the student-athlete and advise the family during the recruitment process. On average our team will spend over 36 hours on reviewing tapes to compile the highlight films needed to attract the best scholarship offers nationwide.

- (8) Social Media Tracking** - The student athletes social media will be monitored and an alert will be sent to the scout and the player if there is anything posted that is viewed as harmful in their pursuit to college scholarship.
- (9) Financial Aid Planning Report** - Our professionals will analyze your individual circumstance and walk you through the application of any financial aid services you are eligible for. Also, you pick 10 of your top choices for college and we will send you a full analysis of the cost of these schools and what we recommend for your situation.
- (10) CPI Personality Test** - We give our student-athletes a personality test in order to get to know them better, and better service them. This has proven to be successful to find a comfortable new environment while helping pick a college for the child.

And much more.
